ABOUT ME

I was born in Sidoarjo, in August 1996.
I received SPACE Program Scholarship Awardee for six months as Saga University (Japan). I have completed bachelor's degree in Computer Science from Brawijaya University, in 2019, and master's degree from Institut Teknologi Sepuluh Nopember (ITS) in 2022.

I have been working in an IT company for over five years and specialized on system architect, backend engineer also project manager. My research interests include the scalable and inteligent system, artificial intelligent and blockchain technology.
